## A.L.P. Plastic Eggcrate

### Description

#### Plastic Eggcrate

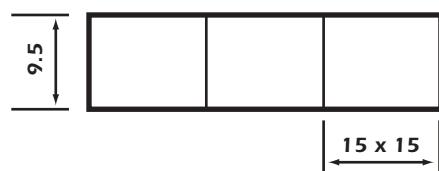

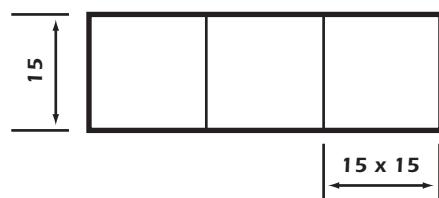

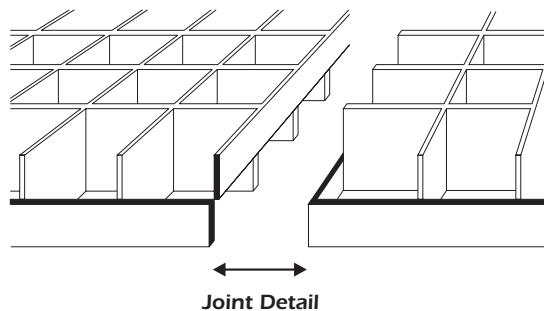

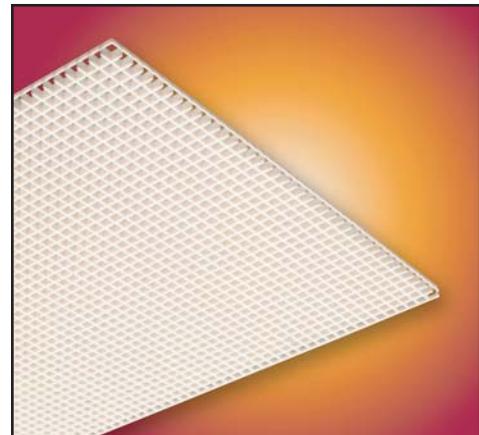

Plastic Louvres have long been an industry standard, so much so, that we tend to forget the many advantages associated with them. This translucent louvre provides a subtle luminous quality, well-ordered architectural appearance, excellent visual comfort and lighting efficiency.

The open cell design permits free circulation of air which results in lower operating temperatures, thus increasing ballast life and improving lamp performance. This product is also available in fire retardant material.

#### Product Data

Cell Size:	ALP45	15 x 15
	ALP453	15 x 9.5
Cell Depth:	ALP45A	15mm
	ALP45	15mm
	ALP453	9.5mm
	ALP453-BL	9.5mm
Weight:	ALP45A & ALP45	2.5kg/m <sup>2</sup>
	ALP453 & ALP453-BL	1.8kg/m <sup>2</sup>
Maximum Panel Size:		603 x 1213
Minimum Panel Size:		50 x 50
Resistance to Fire:		TP(b)
Resistance to UV:	Styrene	Good
	Acrylic	Excellent
Free Area:	ALP45A	78%
	ALP45	78%
	ALP453	74%
	ALP453-BL	74%
